Victories in 2018

God blessed CBR with tremendous victories in 2018. Here we share a few of these successes made possible by your faithful support of our ministry.

A Full Year of CBR ALL Black Lives Matter displays at Smithsonian NMAAHC

November 2018 marks the one-year anniversary of CBR displaying ALL Black Lives Matter signs outside the National Museum of African American History and Culture (NMAAHC) in Washington, D.C. Many thought it could not be done, but our determined staff and attorneys made it possible for CBR to give museum visitors information not being offered inside the building.

CBR Director of Minority Outreach Jacqueline Hawkins has ably led the team of volunteers who have faithfully been outside the NMAAHC. Two of our excellent volunteers are a pastor and a business owner. Staff member Mik'aela Raymond will soon move to the D.C. area to regularly assist Miss Hawkins with the museum project.

Tourists and Washington locals see our signs from two directions of busy traffic. Visitors often arrive in groups, such as: extended black families, international tourists, Native American tour groups, and an Air Force JROTC group from South Carolina. The Native American tour group was studious and said very little to each other. When CBR-Virginia staff member Nicole Cooley offered literature to the ROTC group, one black teen politely declined. "If I take it and read it, I'll cry," he said. An estimated one million visitors passed through the museum this year. No other pro-life group in the country is reaching as many African American students as is CBR.

1,000 Abortion Photo Sign Displays by CBR Poland in 2018

We rejoice in the work of all of our affiliates around the world, but the growth and impact of CBR-Poland has been particularly outstanding. Director Mariusz Dzierzawski leads teams around Poland that faithfully educate the public about abortion; this year they reached a new milestone of 1,000 abortion photo sign displays in one year! The photos above are from Poland's November 11 Independence March in Warsaw. The CBR-Poland truck parks at the Orłowski Hospital in Warsaw, and has done so regularly since summer 2017.

CBR-Netherlands Uses Internet to Reach Pregnant Women

"How do I kill the baby?" was a chilling question posed by a visitor to CBR-Netherlands's website. She apparently believed we were abortionists.

Founder Irene van der Wende reports they're having more women from around the world request how to do an abortion. She builds rapport with them and shares CBR photos and video of prenatal development and abortion. Praise God that some women change their minds about aborting their babies, including a woman in Suriname in November.

CBR-Netherlands also cleverly took advantage of the media frenzy claiming President Trump was separating children from their parents when they illegally crossed the U.S. border. Knowing that Europe "separates" more than 3000 preborn children from their parents daily, they created a satirical poster of Prime Minister Rutte looking at a dismembered 15-week preborn baby in a dish with the caption "Welcome to the Netherlands." This was modeled after the *TIME* Magazine cover photo, and CBR-Netherlands made this poster public on World Population Day. <http://bit.ly/2R0H5ro>

Some of the other major 2018 CBR-Netherlands accomplishments were: presenting to the United Nations; working with Catholics to introduce Rachel's Vineyard abortion healing to the Netherlands (CBR-Netherlands had the manual translated into Dutch); partnering with CBR-Spain to send letters with CBR abortion photos to the Senate in Argentina, which helped shift the vote 38-31 against legalizing abortion; and making www.AbortusPILStopper.nl available in the Netherlands.

This beautiful Dutch child was saved through CBR-Netherlands's ministry.

Planned Parenthood has worked vigorously to gain unmerited respect over the decades, but no respect is due PP or their racist founder, Margaret Sanger. Accordingly, we have created new signs which expose her connection to the Nazis and her racist plans to reduce "undesirables." We display them alongside photo signs of Hitler and Sanger herself.

Planned Parenthood Founder Margaret Sanger

Lothrop Stoddard wrote the racist book *The Rising Tide of Color Against White World Supremacy* (1920). Margaret Sanger appointed Stoddard to the board of her Birth Control League (later Planned Parenthood).

Hitler published Stoddard's racist/eugenics writings in Nazi school books.

Salvation Is from the Jews, Schoeman, Ignatius (2003) p. 186:

Free Speech Victories - GAP Shifts Abortion from Being "A Forbidden Topic" to the Talk of the Campus

- Phil, a student at University of North Carolina-Greensboro, told us that when he was assigned to give a persuasive speech, "The only forbidden topic was abortion. Then you guys explode the topic on campus. Great!" Pro-abortion professors don't want to be humiliated trying to defend the indefensible. (April 18-19)
- After completing an arduous GAP tour, faithful staff member Jane Bullington noted that: "Free speech won. At every school students and staff said they could not believe we would come to such a place. We MUST GO! Conservative students must have a voice."
- An Old Dominion University student thanked us for being on campus, offering, "I never know how to bring this issue up and your display starts conversations." (Sept. 24-25)

We praise God for your prayer and financial support in 2018.

"Oh, sing to the Lord a new song! For He has done marvelous things; His right hand and His holy arm have gained Him the victory." PSALM 98:1

Prayer Requests

- Please fast and pray for a strong start in 2019 with volunteers, prayer support and major fundraising success.
- Pastors to boldly preach against abortion
- Courageous students to sponsor GAP in 2019

Reproductive "Choice" Campaign Trucks

Twice weekly in Tennessee

CBR Launches New Signs Identifying "Abortion is Another Child Abuse Scandal"

Child abuse of born children has become a pervasive evil in both churches and secular institutions. The news is being compelled to report on the endemic cover-up of this abuse, from the U.S. Olympic teams to churches. At CBR, we regularly use current events to expose the evil of abortion. This time, the parallels are especially strong. Our campaign in Ireland was so powerful that we are now introducing "Abortion is Another Child Abuse Scandal" signs in the U.S.

Isle of Man Starts CBR Affiliate

Our newest international affiliate is on The Isle of Man (IOM), and CBR-UK has worked with us to help CBR-IOM establish a regular public presence on the island. Team leader Ros Taisia sent this photo of the November 20 display, noting that "the Lord graced us with sunshine throughout." CBR-IOM is out with the abortion photo signs every Tuesday, between the old Post Office and the IOM bank on Regent Street.

Voters sadly decided in favor of broadening the abortion law this year, but now the bill must go to the Justice Courts in London, and then for Royal assent. A government official informed Ms. Taisia that could take some time, and that Brexit could cause a further delay. Ms. Taisia emailed to say, "We need to keep praying that the Lord's will be done and keep displaying on the streets STANDING and SPEAKING out the truth." As is true in many countries, CBR is the only pro-life group using shocking photos to expose the horror of abortion.

New CBR staff member Joshua Lindsey participated in CBR's "Choice" project at Alamance College in Graham, North Carolina. When a student named "Kate" said it should be legal to abort a baby who can't survive outside the womb, Mr. Lindsey, who has cerebral palsy, countered with the fact that he couldn't survive if people did not help him to eat and drink, etc. Obviously, their discussion left her with food for thought. Mr. Lindsey was encouraged when a professor thanked him for being there, saying, "I agree 100% with what you're doing." We thank God that Mr. Lindsey has become a new CBR staff member.

Our Trucks Force a Political Debate on Abortion

CBR's trucks rolled for several months in our Key States Project which yielded pro-life victories in swing state elections, including Indiana, Missouri and Tennessee. We thank God for our planning team and committed drivers.

“ *Abortion is Another Child Abuse Scandal* ”

We took our Genocide Awareness Project (GAP) to Mesa and Glendale Community Colleges in Arizona on October 22-25. These schools don't require student sponsorship. We were prevented from making a second visit to Arizona State University (ASU) because administrators added a student sponsorship requirement. No ASU student group could be persuaded to partner with us, and it may be fewer students are willing to sponsor GAP due to the increase of persecution and hostility toward conservative groups, especially if they are Christian. We are now preparing to go to court to fight ASU's student sponsorship regulation. We anticipate that God will grant us victory.
